Abstracted in: *Biological Abstracts: Bulletin Signaletique: CABS (Current Awareness in Biological Sciences); Cambridge Scientific Abstracts; Chemical Abstracts: Criminology, Penology and Police Science Abstracts; Current Contents; EMBASE/Excerpta Medica; Medline/Index Medicus; National Criminal Justice Reference Service; Police Science Abstract; Science Citation Index; PubMed; Scopus.*

Review Article

Aconitum alkaloid content and the high toxicity of aconite tincture
T.Y.K. Chan 1–3

Research Articles

Potential carcass enrichment of the University of Tennessee Anthropology Research Facility: A baseline survey of edaphic features
F.E. Damann, A. Tanittaisong and D.O. Carter 4–10

A new molecular approach to help conclude drowning as a cause of death: Simultaneous detection of eight bacterioplankton species using real-time PCR assays with TaqMan probes
T. Uchiyama, E. Kakizaki, S. Kozawa, S. Nishida, N. Imamura and N. Yukawa 11–26

The evidential value of intra-alveolar haemosiderin-macrophages in cases of sudden infant death syndrome (SIDS)
G. Kernbach-Wighton, Y. Albalooshi and B. Madea 27–32

Detection of hemorrhage source: The diagnostic value of post-mortem CT-angiography
C. Palmiere, S. Binaghi, F. Doenz, P. Bize, C. Chevallier, P. Mangin and S. Grabherr 33–39

First systematic evaluation of the potency of *Cannabis sativa* plants grown in Albania
Z. Bruci, I. Papoutsis, S. Athanaselis, P. Nikolaou, E. Pazari, C. Spiliopoulou and G. Vyshka 40–46

Long-term stability of GHB in post-mortem samples and samples from living persons, stored at −20 °C, using fluoride preservatives
B. Fjeld, M.L. Burns, R. Karinen, B. Larssen, A. Smith-Kielland and V. Vindenes 47–51

On non-invasive 2D and 3D Chromatic White Light image sensors for age determination of latent fingerprints
R. Merkel, S. Gruhn, J. Dittmann, C. Vielhauer and A. Bräutigam 52–70

Image region duplication detection based on circular window expansion and phase correlation
H. Shao, T. Yu, M. Xu and W. Cui 71–82

Lifestyle illicit drug seizures: A routine ESI-LC-MS method for the identification of sildenafil and vardenafil
R. Patterson, P. Mabe, E.N. Mitchell and W. Cory 83–88

On the autofluorescence of fingermarks
S.A.G. Lambrechts, A. van Dam, J. de Vos, A. van Weert, T. Sijen and M.C.G. Aalders 89–93

Physical and mechanical degradation of shirting fabrics in burial conditions
J.L. Mitchell, D.J. Carr, B.E. Niven, K. Harrison and E. Girvan 94–101

Evaluation of different sampling media for their potential use as a combined swab for the collection of both organic and inorganic explosive residues
N. Song-im, S. Benson and C. Lennard 102–110

A validated method for the analysis of cannabinoids in post-mortem blood using liquid-liquid extraction and two-dimensional gas chromatography-mass spectrometry
R. Andrews and S. Paterson 111–117

Concentrations of zolpidem and zopiclone in venous blood samples from impaired drivers compared with femoral blood from forensic autopsies
A.W. Jones and A. Holmgren 118–123

Estimating shot distance from limited pellets pattern
A. Plebe and D. Compagnini 124–131

Clinical and forensic examinations of glycemic marker 1,5-anhydroglucitol by means of high performance liquid chromatography tandem mass spectrometry
C. Hess, B. Stratmann, W. Quester, B. Madea, F. Musshoff and D. Tschoepe 132–136

(Contents continued on page BM I)

0379-0738(20121010)222:1/3;1-H

08021

(Contents continued from outside back cover)

Preliminary evaluation of the persistence of organic gunshot residue
J. Arndt, S. Bell, L. Crookshanks, M. Lovejoy, C. Oleska, T. Tulley and D. Wolfe 137–145
Behavioural case linkage with solved and unsolved crimes
M. Tonkin, J. Woodhams, R. Bull and J.W. Bond 146–153
Screening analysis for medicinal drugs and drugs of abuse in whole blood using ultra-performance liquid chromatography time-of-flight mass spectrometry (UPLC-TOF-MS)-Toxicological findings in cases of alleged sexual assault
R.I.D. Birkler, R. Telving, O. Ingemann-Hansen, A.V. Charles, M. Johannsen and M.F. Andreasen 154–161
Gas at postmortem computed tomography - An evaluation of 73 non-putrefied trauma and non-trauma cases
F.T.F. Gebhart, B.G. Brogdon, W.-D. Zech, M.J. Thali and T. Germerott 162–169
The development of an automatic recognition system for earmark and earprint comparisons
S. Junod, J. Pasquier and C. Champod 170–178
Comparison of thoracic wall behavior in large animals and human cadavers submitted to an identical ballistic blunt thoracic trauma
N. Prat, F. Rongieras, H. de Freminville, P. Magnan, E. Debord, T. Fusai, C. Destombe, J.-C. Sarron and E.J. Voiglio 179–185
The database search problem: A question of rational decision making
S. Gittelson, A. Biedermann, S. Bozza and F. Taroni 186–199
Raman spectroscopy and microspectrophotometry of reactive dyes on cotton fibres: Analysis and detection limits
G. Massonnet, P. Buzzini, F. Monard, G. Jochem, L. Fido, S. Bell, M. Stauber, T. Coyle, C. Roux, J. Hemmings, H. Leijenhorst, Z. Van Zanten, K. Wiggins, C. Smith, S. Chabli, T. Sauneuf, A. Rosengarten, C. Meile, S. Ketterer and A. Blumer 200–207
Learning in practice for becoming a professional forensic expert
S. Köpsén and S. Nyström 208–215
Synthetic cannabinoids in "spice-like" herbal blends: First appearance of JWH-307 and recurrence of JWH-018 on the German market
L. Ernst, K. Krüger, R. Lindigkeit, H.-M. Schiebel and T. Beuerle 216–222
The time-dependant post-mortem redistribution of antipsychotic drugs
E. Saar, J. Beyer, D. Gerostamoulos and O.H. Drummer 223–227
Serious head and neck injury as a predictor of occupant position in fatal rollover crashes
M.D. Freeman, K. Dobbertin, S.S. Kohles, L. Uhrenholt and A. Eriksson 228–233
Odor mortis
A.A. Vass 234–241
Effect of evaporation and matrix interferences on the association of simulated ignitable liquid residues to the corresponding liquid standard
K.R. Prather, V.L. McGuffin and R.W. Smith 242–251
Dental identification by comparison of antemortem and postmortem dental radiographs: Influence of operator qualifications and cognitive bias
V. Pinchi, G.-A. Norelli, F. Caputi, G. Fassina, F. Pradella and C. Vincenti 252–255
Highly reliable quantification of proteins such as members of the HSP70 superfamily based on the grey scale index via immune detection stained bands on a Western blot
J.-H. Modrow, A. Preusse-Prange, P. Meyer, M. Harder, T. Schwark and N. von Wurmb-Schwark 256–258
Advanced statistical analysis of Raman spectroscopic data for the identification of body fluid traces: Semen and blood mixtures
V. Sikirzhytski, A. Sikirzhytskaya and I.K. Lednev 259–265
Are there population differences in *minutiae* frequencies? A comparative study of two Argentinian population samples and one Spanish sample
E. Gutiérrez-Redomero, N. Rivaldería, C. Alonso-Rodríguez, L.M. Martín, J.E. Dipierri, M.A. Fernández-Peire and R. Morillo 266–276
Automated region segmentation on cartridge case base
U. Sakarya, O. Topçu, U.M. Leloğlu, M. Soysal and E. Tunali 277–287
Nanotechnology for forensic sciences: Analysis of PDMS replica of the case head of spent cartridges by optical microscopy, SEM and AFM for the ballistic identification of individual characteristic features of firearms
F. Valle, M. Bianchi, S. Tortorella, G. Pierini, F. Biscarini and M. D'Elia 288–297
Identification and characterization of 2,5-dimethoxy-4-nitro-β-phenethylamine (2C-N) - A new member of 2C-series of designer drug
D. Zuba, K. Sekula and A. P·iczek 298–305
Response surface methodology and improved interval analysis method-For analyzing uncertainty in accident reconstruction
T. Zou, M. Cai and X. Shu 306–312
Determination of bromadiolone and brodifacoum in human blood using LC-ESI/MS/MS and its application in four superwarfarin poisoning cases
H. Yan, P. Xiang, L. Zhu and M. Shen 313–317
Separation of overlapping fingermarks by Matrix Assisted Laser Desorption Ionisation Mass Spectrometry Imaging
R. Bradshaw, W. Rao, R. Wolstenholme, M.R. Clench, S. Bleay and S. Francese 318–326
Comparison of fatal poisonings by prescription opioids
M. Häkkinen, T. Launiainen, E. Vuori and I. Ojanperä 327–331
The frequencies of mutated alleles of *CYP2D6* gene in a Turkish population
A. Serin, H. Canan, B. Alper and M. Gulmen. 332–334
Lucilia silvarum Meigen, 1826 (Diptera: Calliphoridae)-A new species of interest for forensic entomology in Europe
H. Fremdt, K. Szpila, J. Huijbregts, A. Lindström, R. Zehner and J. Amendt 335–339

Rapid quantitative colourimetric tests for trinitrotoluene (TNT) in soil
A. Choodum, P. Kanatharana, W. Wongniramaikul and N. NicDaeid 340–345
Cyanide quantification in post-mortem biological matrices by headspace GC-MS
B. Desharnais, G. Huppé, M. Lamarche, P. Mireault and C.D. Skinner 346–351
A hydrophilic interaction liquid chromatography electrospray tandem mass spectrometry method for the simultaneous determination of β-hydroxybutyrate and its precursors in forensic whole blood
L.K. Sørensen and J.B. Hasselstrøm 352–359
Objective paper structure comparison: Assessing comparison algorithms
C.E.H. Berger and D. Ramos 360–367
Regioselective synthesis of isotopically labeled Δ9-tetrahydrocannabinolic acid A (THCA-A-D_3) by reaction of Δ9-tetrahydrocannabinol-D_3 with magnesium methyl carbonate
N. Roth, A. Wohlfarth, M. Müller and V. Auwärter 368–372
Combined target factor analysis and Bayesian soft-classification of interference-contaminated samples: Forensic Fire Debris Analysis
M.R. Williams, M.E. Sigman, J. Lewis and K.M. Pitan 373–386
Genetic and chemical components analysis of *Papaver setigerum* naturalized in Korea
S. Choe, E. Lee, G.-n. Jin, Y.H. Lee, S.Y. Kim, H. Choi, H. Chung, B.Y. Hwang and S. Kim 387–393

Online extra

Forensic Anthropology Population Data

Forensic human identification in the United States and Canada: A review of the law, admissible techniques, and the legal implications of their application in forensic cases
A. Holobinko 394–394
Quantification of the subpubic angle in South Africans
C. Small, D.M. Brits and J. Hemingway 395–395
Influence of sex and body mass index on facial soft tissue thickness measurements of the northern Chinese adult population
Y. Dong, L. Huang, Z. Feng, S. Bai, G. Wu and Y. Zhao 396–396
Nasal aperture shape evaluation between black and white South Africans
J.L. McDowell, E.N. L'Abbé and M.W. Kenyhercz 397–397
Determination of stature from skeletal and skull measurements by CT scan evaluation
F. Giurazza, R. Del Vescovo, E. Schena, S. Battisti, R.L. Cazzato, F.R. Grasso, S. Silvestri, V. Denaro and B.B. Zobel 398–398
Shrunken head (*tsantsa*): A complete forensic analysis procedure
P. Charlier, I. Huynh-Charlier, L. Brun, C. Hervé and G.L. de la Grandmaison 399–399
Sexual dimorphism in human browridge volume measured from 3D models of dry crania: A new digital morphometrics approach
B.M. Shearer, S.B. Sholts, H.M. Garvin and S.K.T.S. Wärmländer 400–400
Metric characterization of the human coxal bone on a recent Italian sample and multivariate discriminant analysis to determine sex
E. Vacca and G. Di Vella 401–401

Case Reports

"Legal highs"-Toxicity in the clinical and medico-legal aspect as exemplified by suicide with bk-MBDB administration
S. Rojek, M. Kłys, M. Strona, M. Maciów and K. Kula e1–e6
Analysis of hydrogen cyanide in air in a case of attempted cyanide poisoning
R. Magnusson, S. Nyholm and C. Åstot e7–e12
Pulmonary thromboembolism after air travel: Two case reports, the review of literature and forensic implications
Z. Mihailovic, B. Radnic, T. Atanasijevic and V. Popovic e13–e18
Lethal esophageal rupture following treatment with Sengstaken-Blakemore Tube in management of variceal bleeding: A 10-year autopsy study
T.S. Nielsen and A.V. Charles e19–e22
Camouflaging Facial Emphysema: A new syndrome
P.A. Martínez-Carpio, Á.F.B. del Campillo, M.J. Leal, N. Lleopart, M.T. Marrón and M.A. Trelles e23–e28
Weapon identification using antemortem computed tomography with virtual 3D and rapid prototype modeling-A report in a case of blunt force head injury
K. Woźniak, E. Rzepecka-Woźniak, A. Moskała, J. Pohl, K. Latacz and B. Dybała e29–e32
Prolonged excretion of 7-aminoclonazepam in urine after repeated ingestion of clonazepam: A case report
L.W. Storhaug, A. Enger, K. Hjelmeland, E.L. Øiestad and V. Vindenes e33–e35

Short Communication

Preliminary study of the succession pattern of necrobiont insects, colonising species and larvae on pig carcasses in Temuco (Chile) for forensic applications
A. Ortloff, P. Peña and M. Riquelme e36–e41

Letter to the Editor

Comment on Bidmos and Manger, "New soft tissue correction factors for stature estimation: Results from magnetic resonance imaging" [Forensic Sci. Int. 214 (2012) 212.e1-212.e7]
C. Ruff, M. Raxter and B. Auerbach e42–e43
